

The **University of British Columbia (UBC)** is Canada's third largest university and consistently ranks among the 40 best universities in the world. Primarily situated in Vancouver, UBC is a research-intensive university and has an economic impact of \$4 billion to the provincial economy. The **UBC Faculty of Medicine** educates health professional and life sciences students at the undergraduate, graduate and postgraduate levels, and pursues research – in the laboratory, in clinical settings and at the population and public policy level – to improve the health of people worldwide.

**BC Children's Hospital (BCCH)** cares for the province's most acutely ill or injured children and youth and pediatric patients with chronic medical disorders, and provides developmental and rehabilitation services to children and youth throughout BC. BCCH offers a wide range of health services and specialized health programs, is a leading acute care teaching facility, and conducts research to advance health and care through the BC Children's Hospital Research Institute, in partnership with the UBC. The pediatric residency program and 17 pediatric subspecialty training programs are accredited by the Royal College of Physicians and Surgeons of Canada.
