PARTNERING FOR PEDIATRIC PAIN

4th Provincial Pediatric Pain Symposium Agenda

Thursday, November 16, 2023

Location: BC Children's Chan Auditorium

Symposium Learning Objectives:

1. Promote increased awareness of inclusivity and diversity in children's pain care.
2. Enhance clinician-child/family communication as a way to advance the care of complex and chronic pain.
3. Improve care of children's pain using a multimodal 3P Approach (Psychological, Physical, & Pharmacological).
4. Build awareness on how children's pain acts as a determinant of development across the early life span.
5. Promote implementation of care plans to support a developmentally appropriate approach that reduces pain symptoms, and enhances the quality of life and daily function for children and youth.
6. Increase awareness of appropriate community resources to support the children, youth, families, and caregivers in providing pain care.

Note: Registration is open at 8:30 AM
